MSQ Lane Warriors – 2025 Results

The MSQ Lane Warriors Program is a year-round fitness challenge that encourages swimmers to log every metre they swim—whether in the pool or open water. Established in 2011, the program recognises personal achievement and club engagement across Queensland.

At the end of each year, clubs submit summary spreadsheets detailing the distances recorded by their members. Participants are grouped into three age categories, and the Top Five swimmers in each category are awarded certificates in recognition of their efforts.

In 2025, eleven clubs and 116 swimmers participated in the program, an 18% increase on 2024. Together, swimmers covered an impressive 27,041,321 metres (27,041 km), averaging 233 km per swimmer.

Congratulations to Lisa Trendle, Pierre Craven and Jemma Bayliss, who recorded the longest distances swum throughout the year, and an impressive 3,411 km combined! Congratulations to the winners of each age group; Brandon Kane, Lisa Trendle and Paul Somerfield.

Toowoomba Masters are also congratulated for achieving the largest club participation with 64 members, and for recording the highest total distance swum—an extraordinary 8,177,495 metres or just over 8,177 km!

Brisbane Northside Masters claim the 2025 Club Average Award with an impressive 555,386 metres swum per swimmer. Well done to all!

Club Awards – Top 3 Averages

All distances for each club are added up and divided by the number of swimmers from the club, who entered the program. A minimum of three swimmers applies for club awards. Swimmers are encouraged to swim as many metres as they can in one year.

Congratulations to the top three clubs for 2025!
